

Dakchyata TVET PRACTICAL PARTNERSHIP Recipient Final Reporting Template

Grant Reference No.	GR-01-CTEVT
Reporting Period	December 2019-September 2022
Date of Submission	14 November 2022

Name of Recipient (Lead organisation)	<i>Council for Technical Education and Vocational Training</i>				
Project Title	<i>Strengthen Employer Engagement in Community School</i>				
Names of implementing Partners	<i>1. B.P. Memorial Polytechnic Institute 2. Gorkha Polytechnic Institute 3. Rapti Technical School 4. Karnali Technical School 5. Ratna Kumar Bantawa Polytechnic Institute 6. Tikapur Polytechnic Institute 7. Dhaulagiri Technical School 8. Nepal Banepa Polytechnic Institute 9. Pokhara Technical School 10. Aandhikhola Polytechnic Institute 11. Bharatpur Polytechnic Institute 12. Bhimdatta Polytechnic Institute 13. Tehrathum Polytechnic Institute 14. Council for Technical Education and Vocational Training</i>				
Location Activities	<i>Janakpur, Gorkha, Dang, Jumla, Ilam, Kailai, Mustang, Kavre, Pokhara, Syangja, Bharatpur Baitadi, Terathum, and Bhaktapur</i>				
Project Start Date	<i>3rd December, 2019</i>				
Total Duration of Project	<i>31 month</i>	Project Start Date	<i>03/12/2019</i>	Project End Date	<i>30/09/2022</i>
Total Project Value	<i>EUR 3 Million NPR 374,310,000.00</i>	Forecast for the period	<i>Original forecast</i>	Expenditure to-date and percentage spent of total amount	<i>Show total amount of expenditure including expenditure for reporting period. Also show % spent of total budget</i>
Reporting Period	<i>December 2019 -September 2022</i>				
Responsible Authority from Lead Organization	<i>Name: Jeeb Narayan Kafle Position: Member of Secretary Email: kaflendpo@gmail.com Telephone: 9841759470</i>				

Learning and Recommendations

What are the most important lessons learnt (max 5) in terms of successes and challenges in this overall project period? Please provide as much detail as possible.

We are most interested in receiving learning about:

- Your chosen TVET model

CTEVT, SEECS applied demand driven TVET model where local industry expert engage each and every activities. The revised curriculum was based on input provided by industry experts. Market oriented skills were shared by industry people to incorporate curricula. Entrepreneurial idea was also shared by private sector.

- How you have worked with private sector actors

One of the major element of TVET was industry people belongs with private sectors. The new skill adopted in market was institutionalized in curriculum through either preparation or revised with the help of them. Basically DSS/M were interact with private sector to acknowledge market driven skills through labour market analysis. The required resources were identified through discussion. The involvement of private sector in school committee plays vital role to mainstream the gap between curriculum and market. The private sectors facilitated to DSS/M for providing OJT, field visit, guest lecture and expert too.

- Transition to green economies

Green economics was emerging theme in Nepalese TVET. The private sectors trying to evoke green skill though they were required support about greener job. The identified green job were incorporated in curriculum during the preparation of curriculum where instructor and industry people were participated. The authorized division should aware about green job and skill before and after the preparation of curriculum.

All DSS/M were practiced about green economics within the limit of resources. DSS/M were incorporated green job when they were prepared customized courses. The concept of optimized utilization of resources were practiced during the conduction of training.

What are your recommendations based on these key learnings? Please provide how have you used this learning to adapt your project and the impact these changes had?

S.No.	Recommendations	How to adopt?	Impact
1.	Engagement of industry people	Appoint industry people in school committee.	Feedback of industry people
		Interact with industry people about schools quality, training delivery and performance of graduates.	Quality assurance of graduates
		Collaborate industry people for case study, OJT and field visit	Field based training environment
		Invite industry people as an expert to train DSS/Ms instructors and graduates.	Upgrade performance and skilled graduates
		Invite industry people to share their success story	Motivation for graduates
		Embed industry people to revise or prepare green curriculum	Green job curriculum
2	GESI learning environment	GESI friendly infrastructure and training and follow up	Motivate differently able participants, Acknowledge female participants by getting sanitary pad. Encourage female participants to participate in TVET, hence uplift the socio-

			<i>economic status.</i>
		<i>GESI language</i>	<i>Minimize biasness.</i>
		<i>GESI quotas</i>	<i>Opportunity to equity and equality</i>
		<i>GESI budgets</i>	<i>Optimize GESI activities</i>
3	<i>Entrepreneurship development</i>	<i>Interact small business stakeholders</i>	<i>Acknowledge business plan</i>
		<i>Interact with banks finance officials</i>	<i>Aware banks facility about soft loan.</i>
		<i>Establish, practice business incubation learner activity</i>	<i>Enhance real field activity during the training.</i>
4	<i>Instructor Development</i>	<i>Interact private sector to upgrade instructor's skill in real field</i>	<i>Motivate instructor by getting market based skill in local community</i>
		<i>Request higher level to provide occupational training.</i>	<i>Opportunity of career path</i>
5	<i>Green Economics</i>	<i>Incorporate green skill in curriculum</i>	<i>Update green curriculum</i>
	<i>Green culture</i>	<i>Acknowledge behavioral pattern of human being</i>	<i>Change habit of human beings</i>
	<i>Green environment</i>	<i>Apply reduce, reuse and recycle strategy</i>	<i>Optimize resources</i>

How have you shared this learning with other stakeholders? Please provide detail on who you shared information with and any reflections on how they responded to this information?

The learning was shared with CTEVT management and also shared at impact event to MOEST, Dakchyata's grant components (ELMS and related stakeholders, RMP, and 10 pilots projects etc) and other stakeholders. SEECS related documentary and other activities will be uploaded in website.

Stories of Change

Please include **story of a trainee** which demonstrates how the project has transformed their skill, link to employers, ability to generate income and continue to develop their expertise.

Please pick a story which shows significant change- you should include information about their life and skills before the training (what they were doing, how they earned an income, and how much) and which then shows the change to their life. Please make sure your story demonstrates the difference between before and after the training.

Use the following template for the story:

Name: Bishal Thapa magar (Graduate: Tile and Marble Fitter, GESI Focused, RTS)

Age: 21

Location: Suklagandaki municipality-5, Tanahun

Do we have consent to share their story?

YES

Story:

Bishal Thapa Magar a residence of Tanahun. He had completed his School leaving certificate and has been trying in Nepal Army. Due to his rejection in enrolment in army he has been trying to reach out for the job available. His father is his only source of income so he has also been trying to help the family economically. Due to the low income of the family he had no further chances to study. During the time of search of the work he had found about the ongoing training of the tile and marble fitter. He enrolled as a student for tile and marble fitter and completed his tanning.

During his training period he had been contacted with employers and after the training classes of morning he used to work in the real filed as tile and marble fitter during the day. He successfully completed his training and now he has been working in his residence area as freelancer in tile and marble fitter. Now he has been successfully helping his family economically.

Comments on why this story is important:

As been a residence of another district, due to his passion, he took the training in another district. This story is important because we need to see that due to the short term training if the people want, they can help to be economically stable and as well as gain enough knowledge about related training.s

Name: Rejena B.K, Graduate (GESI focused Bakery Training, Bharatpur)

Age: 26

Location: Krishnachowk, Bharatpur-23, Chitwan

Do we have consent to share their story?

Story: Rejena B.K who lives in Bharatpur-23, krishnachowk, belongs to disadvantages groups of family. The caste BishwaKarma(BK) falls under the disadvantage group of Nepal as per National Demographic Segmentation of Nepal. She has 6 member in a family. She took a GESI focused Bakery training in Bharatpur Polytechnic institute under SEECS Project. She express her happiness & potentiality of the training. She said "I got opportunity to learn bakery skills which has not been before. She said, the training was fruitful and we are able to apply for the job or can start something own as entrepreneur. In the same time, she had planned to start small tea house with the selling counter of baked product near by the school. Now, she was influenced by training and started small Tea house. Her family were supporting her to run the tea house. She had planned to employed few member if business runs good in the future.

Comments on why this story is important:

The story is very important because SEECS support them to gain skills through training and the skills were converted into employment, self-employment and improve in their livelihood.

Name: Harka Bahadur Gharti

Age: 43 years

Location: Tikapur municipality, Tikapur ward 1, Kailali

Do we have consent to share their story? Yes

Story: Mr. Hark Bahadur Gharti a resident of Tikapur Kailali, Ward 1 is young and energetic person. During his past 10 year of life, he spend 7 years in Kuwait for employment and he return back to Nepal with the aim of self-employment. One two year of return, he became unemployed and thinking about enterprise establishment, at the same period of time little bit known about mushroom production and he started mushroom production with blank knowledge. During this period SEECs project announce about pilot training program notice and he grab this opportunity also. During the training period he know about mushroom production technique like mushroom house construction, mushroom diseases and their control method, vegetable gardening, goat farming etc. After completion of training SEECs project supported tools and equipment as per occupation selected by participants. Mr Gharti selected mushroom production and received tools as per his requirement and started his enterprise. Moreover, Mr Gharti construct mushroom house and started with 80 balls to produce about 800 kg mushrooms with probable income NRs 120000 in one season. After harvesting first lot of mushroom he has plan to produce again in 100 balls.

Comments on why this story is important:

This story is important because piloted training trainee achieve and started his enterprise after training.

Who have you worked with in this project?

Over the project life how many organisations and people have you engaged with? Please try to avoid counting the same organisation or person more than once.

	Number of Organisations	Women	Men	Total
Employers and the private sector	542	114	688	802
Project Partners	29	32	40	72
CSOs	10	1	8	9
Other TVET actors	7	3	3	6
Government of Nepal Representatives	38	24	63	87
Other	22	14	44	58

Please tell us about:

- **How you have worked together with partners/private sector actors over the project period? Please include specific example where possible.**

DSS/M were work together with private sector by following ways:

Analyze labor market

DSS/M were short listed the stakeholder who belongs to private sector and got appointment to identify new market oriented skill by structure questionnaire.

Revise curriculum

DSS/M were discussed with private sector to revise curriculum based on labor market analysis.

Identify required tools and equipment's.

DSS/M were discussed with private sector for requirement of tools and equipment based on curriculum.

- **What processes and structures have you developed to collect information on market need or how to change a curriculum? How effective were these processes and how can the process be improved?**

At new market oriented skill were identified from labor market analysis where number of industry people were invited with same occupation. A committee was formed to revise curriculum with the leadership of curriculum expert. They analyzed each task with necessary time and required tools and equipment. The first draft were verified with another level committee and endorsed after approved by curriculum authority.

- **How did private sector actors and local authorities engage with your coordination structures or decision making processes for the project?**

Private sector were invited through invitation letter with agendas and venue. Sometimes informal invitation were also practiced. They interact on the agenda in many times and made a conclusion for minute.

How are the collaborative processes and structures you have developed in this project going to be sustained after the project closes?

A sustainable plan was developed to endorse the activities of project after closes. The plan was submitted to management level of CTEVT. A short term plan will also prepare by schools and schools will prepare a plan to allocate budget and submit to CTEVT for budget approval.

Council for Technical Education and Vocational Training (CTEVT)
Strengthening Employer Engagement in CTEVT Schools (SEECS)

Sustainability Plan

Activity	Strategies	Actions	Budget	Responsible person
<i>Establish a role for employers in (EICC): school governance, planning, delivery</i>	<ul style="list-style-type: none"> • Implement EICC guideline for EICC by schools • Engage employers' associations at local level 	<ul style="list-style-type: none"> • Develop guidelines for EICC by CTEVT • Formalize employers' associations 	Regular budget	Technical Division in CTEVT Focal person 1- Collaboration-SEECS/ Schools
<i>Replicate in new school</i>	<ul style="list-style-type: none"> • Identify related occupation school. 	<ul style="list-style-type: none"> • Select school • Selection of task which can be replicate • Develop action plan 	Regular budget	Technical Division in CTEVT Focal person 1- Collaboration-SEECS/ Schools
<i>Develop SEECS curriculum that reflect local skills demand</i>	<ul style="list-style-type: none"> • Collect local industry demand through LMA • Select local employers with TOR 	<ul style="list-style-type: none"> • Allocate resource person to develop curriculum. • Conduct job analysis workshop. • Incorporate market demanded skills on curriculum. 	Regular budget	Curriculum Division, Related department of school, EICC.
<i>Procuring tools and resources that reflect industry demand</i>	<ul style="list-style-type: none"> • Develop procurement plan. 	<ul style="list-style-type: none"> • Prepare tools and equipment list with specification and estimated cost. • Approved through EICC. • Procure 	Regular budget	Procurement committee and related department.
<i>Supporting Careers Advice and Guidance activities that promote learners transition to employment</i>	<ul style="list-style-type: none"> • Established PCU unit. • Develop SOP of PCU 	<ul style="list-style-type: none"> • Appoint PCU officer. • Train PCU officer. • Develop link with industry 	Regular budget	Placement and Counseling Unit
<i>Supporting learners' entrepreneurship skills development through mentors and incubators</i>	<ul style="list-style-type: none"> • Established BIC • Develop guideline of BIC. • Develop detail plan of BIC. 	<ul style="list-style-type: none"> • BIC Expert. • Link with financial institution. 	Regular budget	BIC community, BIC Focal Person

<i>Supporting instructor development and inviting employers to deliver training</i>	<ul style="list-style-type: none"> • Identify the gaps of instructors. • Prepare training plan. • Prepare roster of potential employers. 	<ul style="list-style-type: none"> • Prepare related training models • Conduct training. 	<i>Regular budget</i>	<i>TITI, School Management Committee.</i>
<i>Green skills and economy</i>	<ul style="list-style-type: none"> • Identify green skills and incorporate in curriculum. • Monitoring strategies. 	<ul style="list-style-type: none"> • Implement • monitoring 	<i>Regular budget</i>	<i>Curriculum division and School Management Committee.</i>
<i>GESI training/programs and community engagement</i>	<ul style="list-style-type: none"> • Develop training program, awareness. • Planning, monitoring, evaluation and knowledge management from GESI perspectives. 	<i>Identify barriers to access.</i> <i>Provide training</i>	<i>Regular budget</i>	<i>GESI Department</i>
<i>School Leadership Development</i>	<ul style="list-style-type: none"> • Develop traits • Develop training models. 	<i>Conduct training</i>	<i>Regular budget</i>	<i>School Management Committee.</i>
<i>School Instructor Development</i>	<i>Identify potential instructors</i> <i>Develop training models</i>	<i>Conduct training</i>	<i>Regular budget</i>	<i>TITI, School Management Committee.</i>
<i>Employers pedagogical skills development</i>	<i>Identify potential employers.</i> <i>Develop training models.</i>	<i>Provide training</i>	<i>Regular budget</i>	<i>TITI, School Management Committee.</i>
<i>Employed graduates</i>	<i>Develop Tracer study plan</i>	<i>Conduct Tracer study</i>	<i>Regular budget</i>	<i>School Management Committee. And PCU</i>
<i>Establish Monitoring Mechanism</i>	<i>Develop guidelines</i>	<i>Implement monitoring, evaluation and provide feedback</i>	<i>Regular budget</i>	<i>Technical Division –Provincial office/ School, EICC</i>

Learners

Please complete this section once your piloting with Learners has commenced. The following questions relate only to the Learners engaged in your piloting:

How many learners have been engaged with the pilot?

The data of GESI focused training were in annex- Trainees

	Total Target	Women	Men	Total
Learners		50	125	175
Drop-Outs		2	3	5

What have been the main reasons for drop-outs amongst your Learners? What ways are you supporting Learners to remain in the project? How has this helped reduce drop-outs?

Among the 180 trainees, 5 trainees were dropped the training. Two female participants were unable to complete the training due to time management with family member. Some participants dropped the training because of they got the chances to abroad working visa.

Please provide a breakdown of the age group of your learners involved in the pilot:

	Women	Men	Total
15-17 years	4	3	7
18-24 years	33	49	82
25-35 years	18	36	54
Plus 35	7	25	32

Vulnerable Groups: Where possible please provide the breakdown of the vulnerability status of your Learners involved in the piloting:

	Women	Men	Total
Disabled	N/A	N/A	N/A
(Please state vulnerability)			
(Please state vulnerability)	N/A	N/A	N/A

Please use as many lines as necessary.

Please tell us about the activities you are implementing to support women and vulnerable groups? How have they supported these groups to participate in the project?

N/A

What has changed? Your activities and results

S.N.	Activities (please break down trainings per trade)	Training	Status	Overall Target #	Reach figures (please include detail on gender breakdown per trade)	How was activity delivered	Deviation with Reason

What TVET models have you used in your project e.g. SAE, FBA- please provide a detailed description of how you delivered skills training and who you worked with? What were the challenges experienced and how did you address them?

CTEVT, SEECS practiced the inclusion of private stakeholders. Industry expert were participated each and every activities of project. The practiced SEECS model has

1. Formation of EICC
2. Collect the demanded occupations and skills
3. Incorporated the demanded occupation and skills in the existing curriculum and recommended by EICC to revise the curriculum
4. Get approval of the revised curriculum from CTEVT
5. Conduct the training focussed on GESI
6. Developed reports and disseminated to the stakeholders
7. Inclusion of industry people in school committee.

The methodology applied during the training were:

Illustration talk, lecture method, group work, case study, virtual demonstration, guided practice, individual practice, field visit and OJT.

The skilled instructor, graduate and industry people were involved during the implementation of training. The success story was shared by graduates and industry people. During the OJT, industry provided their platform and provided coaching trainees.

SEECS revised 9 curricula and among them two DSS's curricula (Local road supervisor) has only provision of OJT. BPMP and GPI revised the curriculum of local road supervisor of 400 hrs. Out of 400 credit hours, 100 credit hours is provisioned for OJT and remaining were provisioned for theory and workshop practice.

For the placement of OJT, DSS sort listed the industry which may compatible with curriculum. DSS discussed with them and correspondence along with skill to be learn, attendance, agreement and follow up schedule. Industry appointed a supervisor to monitor and mentor the trainee. The placement capacity on OJT was decided by bilateral correspondence. During the OJT period, supervisor of industry people responsible to evaluate the trainee. DSS follow up the trainee by preparing the follow up schedule. During the follow up by DSS, they acknowledge about the performance of trainee by consulting supervisor and trainee.

The practice and approach of OJT is fruitful in vocational training. It enhance the work based learning and also allows to experience of industry behaviour and culture.

In future, the trainee who were participated in OJT may perform differently comparatively with other. They already familiar with industry culture and work method.

What are the key results for trainees achieved through your training courses? We understand these may be preliminary results.

Results	Number Achieved or changes identified (Please provide gender breakdown)	Explanations or reflections
Completion rate for your training courses		
# of people tested by NSTB	20 participants of NBPI tested on 11 Nov and 17 participants of RTS tested on 8 Nov. PTS, RKBPI, TPI, DTS will be tested within 3 DEC. KTS, GPI and BMPI were under verifying process.	Not yet evaluated
# of people passing NSTB testing	On the Process, NSTB will publish the result after the 3 months later	

	<i>from testing date.</i>	
# of people tested by a Committee (not NSTB)	<i>There were no provision of testing by other body rather than NSTB.</i>	
# of people passing the Committee testing	<i>N/A</i>	
# trainees linked to employers	<i>13 trainees</i>	
Employment status of trainees	<i>18 trainees of GESI and 16 trainees of Pilot training were self-employed. The remaining data will be analyzed after the impact study.</i>	
Income levels of trainees	<i>Nrs 12,000- 18,000</i>	
Include any other results		

Risk Management & Mitigation

Please use the table below to describe the main risks you faced in the project period and how you dealt with them.

<p><i>Which risks materialized during the project period?</i> <i>Describe briefly. Please ensure you include staff turnover and vacancies or risks relating to partnership working if this applied.</i></p>	<p><i>Was the risk anticipated?</i> <i>Yes / No / To some extent</i></p>	<p><i>What action did you take to address the risk?</i> <i>Briefly explain.</i></p>	<p><i>Was this action sufficient?</i> <i>Yes / No / To some extent</i></p>
<p><i>1. Due to Covid-19 difficult to consult face to face with different stakeholder while preparing different documents.</i></p>	<p><i>Yes</i></p>	<p><i>Optional method like phone conversation and email was used</i></p>	<p><i>Some extent</i></p>
<p><i>2. Organization of meeting with EICC and stakeholders</i></p>	<p><i>Yes</i></p>	<p><i>Manage time and meeting venue as per stakeholders opinion.</i></p>	<p><i>Yes</i></p>
<p><i>3. Procurement and delivery of ICT and Occupational equipment</i></p>	<p><i>No</i></p>	<p><i>Frequently request and sent order letter to delivery in time</i></p>	<p><i>Some extent</i></p>
<p><i>4 Identification and selection of DSSM</i></p>	<p><i>No</i></p>	<p><i>Internal Institutional assessment and telephonic conversation were done to identify requirement and capacity of the potential DSSM to completion of the activities. Occupation and Provincial balance were also considered while selecting the DSSM. Schools were also asked to submit proposals which include completion of activities in the given time frame</i></p>	<p><i>Yes</i></p>

5. Due to adverse climatic Conditions (snowfall) unable to communicate and coordination with different stakeholders and EICC members	Yes	Meeting and communication conducted after winter vacation	yes
6. Difficult to arrange meetings with employers/stakeholders due to pandemic situation.	NO	Conducted virtual meeting.	Some extent
7. Winter Vacation	Yes	Organize before and after the vacation	yes
8. Local government election	Yes	Organize before and after the election	yes

Among the 9 revised curriculum, Local road supervisor has provision of 25% OJT. There were 100 credit hour provision of OJT and 300 credit hour provision for classroom and practical works.

At first, DSS short listed the probable industry as per curriculum and they discussed with them. A request letter with checklist were sent to industry. DSS allocate the trainee based on requisition. The trainee were supervised by responsible industry people. Instructor followed up the trainee time to time.

The provision of OJT makes the trainees field based practice along with acknowledged the behavioural practice of industry.
